

**MiraMed**  
A GLOBAL SERVICES COMPANY

**MACRA *MadeEasy* Platform**

**The Quality Payment  
Program (QPP) Platform  
for Compliance**

## **What You Don't Know Can Hurt You....**

### Understand and Meet the QPP Requirements

Fee-for-service has been the traditional methodology for reimbursements, but as CMS transitions to a pay-for-performance methodology, it is easy to get lost in the acronyms and the policy. The co-sourced **MACRA *MadeEasy* platform** guides clients through these changes and provides a structured and practice-specific platform to ensure that a practice is not only protected from penalties, but puts itself in line for incentive payments.

#### **Who's required to participate?**

Most clinicians who bill over \$90,000 yearly in Medicare Part B charges and see over 100 Medicare Part B patients are already part of the QPP. And participating in the QPP requires reporting patient data across all payers.

## Introducing Successful and Seamless QPP Achievement through the MiraMed Family of Solutions:

The pioneering **MACRA MadeEasy** co-sourcing platform prepares clinicians and practices for the changes currently in effect from the Medicare Access and CHIP Reauthorization Act (MACRA), as part of CMS's Quality Payment Program (QPP) utilizing the Merit-based Incentive Payment System (MIPS).

These new CMS requirements, already in effect, mandate that providers track and regularly report standardized metrics across four categories, including quality performance. QCDR reporting offers the greatest level of flexibility and alignment with anesthesia practices and MIPS is the recommended approach for almost all providers.

Our platform can help usher you into the future of healthcare with the **MACRA MadeEasy** solution guiding you through the steps. All this data transfers seamlessly through the **MiraMed QCDR** registry to fulfill CMS's required reporting.

**Join the 8,000,000+ patients and 6,000+ clinicians already reporting their performance through the MiraMed certified QCDR program.**

## MIPS—How It Works... for 2018

MIPS has four performance categories that must be met for successful completion and to achieve incentive payments and avoid penalties. By utilizing the MiraMed QCDR you have a custom set of measures that allow us to recommend a set of measures based on your specific needs.

Quality

*Submit data on six Quality of Care measures.*

Improvement  
Activities

*Attest you've done up to four things to improve your practice in 2018 (from a list of 92 possible).*

Advancing  
Care  
Information

*Adopt an EHR to fulfill related interoperability measures.*

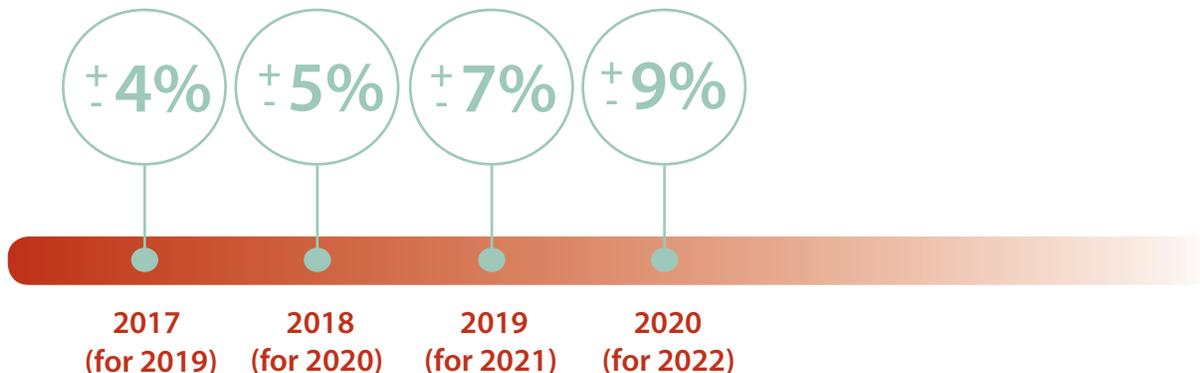

Cost

*Use analytics and Supplemental Quality and Resource Use Reports (sQRUR) to begin to evaluate your costs.*

## What's in it for you?

### Your performance in 2018 affects your 2019 payments

- A potential +/- 5% bonus.
- We recommend 2018 reporting for at least 90 days, so you must be set up and participating by October 1.
- Starting early may increase your performance scores.

## Who is Affected?

-  **Physicians**
-  **Physician Assistants**
-  **Nurse Practitioners**
-  **Clinical Nurse Specialists**
-  **Nurse Anesthetists**

Join the 8,000,000+ patients and 6,000+ clinicians already reporting their performance through the MiraMed certified QCDR program.
